**THIS IS YOUR LIBRARY LIFE**  
Emerald Leung, Civica Library & Learning, VIC

Emerald takes her audience on a journey, addressing questions such as: Why librarianship? What matters? What drives you? What are the skills required to successfully navigate the diverse sphere of information management?

The aim is to encourage new grads to look beyond their library qualification and recognise the experience that simply living and learning brings to the role of librarian. Contains CV tips in addition to gratuitous celebrity name dropping.
